Your Host: Tim Parker
Founder & CEO of DealerLink

"This is a product that dealers have been asking for, for a very long time. Special finance departments in the last year have really been struggling because of all the lender cutbacks and tightening up of criteria. That's why we feel this is the perfect product at the perfect time. We think it might be one of the biggest things we've ever done."

"We feel very strongly that this is going to be a product that we are literally going to sell out nationwide. This is something we've worked very hard to be able to put together and we think we've really got a hot, hot product here. This product is not something that everybody has available in the marketplace. I can't imagine there could possibly be a better quality lead than one that comes with all these guarantees."
